

This leaflet provides information for those who have been involved in a crime to be assistance of.

○ Criminal proceedings ○ Request cooperation to victims ○ Consultation services

Cooperation we need from you and your family

1 Interview

We will ask you about what happened and how the suspect looks like in detail. We may ask for your help to verify the suspect when we find the suspect. Since these are necessary steps to clarify the suspect and the fact of the crime, we must ask your cooperation.

2 Submission of Evidence

We may ask you to give us your clothing and belongings you had on you at the time of the crime as evidence. We'll give them back to you when they are no longer needed for the investigation or trial.

3 Attending On-the-Scene Investigation

We may ask you to attend On-the-Scene Investigation to identify the scene of the crime and to find out other related matters. This may take some time, but it is necessary to prove the crime.

4 Testimony at trial

Crime victims may be asked to give testimony at trial to establish the crime. You'll be given an opportunity to state your feelings and opinion as a victim. The court provides various supports with extra consideration to victims.

Consultation Services

There is no full-time interpreter, please prepare an interpreter on your own when you contact each service.
